

## Public Forum: Preparation for the Black Tide

### The Science of an Oil Spill and Disaster Preparedness

Answers to your questions about the effects of the oil spill  
on our beaches, our property, our health and our community.

This Saturday, May 8th, at 2:00pm, a panel of leading scientists, experts, and professionals will make themselves available to answer questions from the public about the short and long term impact of the BP oil spill on the ecology of the Gulf Coast and public health, and how best to protect yourself and your family. Speakers and topics will include:

#### **The Oceanography of an Oil Spill and the Technical Implications of a Black Tide**

Prof. Dick Snyder, Professor and Director, Center for Environmental Diagnostics and  
Bioremediation Biology, University of West Florida

Prof. Ian MacDonald, member of Oil Spill Academic Task Force and Oceanography Professor,  
Florida State University

#### **Volunteer Safety and Public Health Implications**

Dr. Richard Weaver, Physician, Dangers of potential exposure pathways

#### **Maintaining Records of Property Loss and Economic Hardship Accounting and Record-Keeping**

Mike Johnson, Jeff DeWeese—O'Sullivan Creel

#### **Documentation of Property Damage and Loss of Revenue**

Brad Bradford, Nathan Bess—Aylstock, Witkin, Kreis & Overholtz; Daniel W. Uhlfelder, P.A.

**Hilton Garden Inn on Pensacola Beach**  
**Saturday, May 8 • 2:00 PM • White Sands Room**

**Aylstock, Witkin,  
Kreis & Overholtz, PLLC**

**O'SULLIVAN CREEL**

**DANIEL W. UHLFELDER, P.A.**
